State Requirements	A copy of the invoice should be included (NY)	Not Applicable	Not applicable for Connecticut.
Escalation Check	Value vs. Price: If the final value is higher than list price, purchase price, and prior sale price.	Needs Escalation	Final value ($455,000, Page 1) is higher than the list price ($425,000, Page 2) and purchase price ($450,000, Page 2). No prior sale price for the subject was found.
Escalation Check	Value Higher than Purchase Price: If appraised value is higher than the purchase price.	Needs Escalation	Final value ($455,000, Page 1) is higher than the purchase price ($450,000, Page 2).
Escalation Points	Value vs. Price: If the final value is higher than list price, purchase price, and prior sale price.	Needs Escalation	Final value ($455,000, Page 1) is higher than the list price ($425,000, Page 2) and purchase price ($450,000, Page 2). No prior sale price for the subject was found.

	higher than the purchase price.		

Prompt Analysis Issues

Check	Requirement	Value	Comment
Prompt Analysis	Sales Comparison Approach: Sale Price Bracketing & 10% Rule	Not Fulfilled	The Indicated Value by Sales Comparison Approach ($455,000) is within the range of unadjusted comparable sale prices ($450,000 - $550,000). However, it is not 10% higher than the subject's contract price ($450,000), being only approximately 1.1% higher.
Prompt Analysis	Sales Comparison Approach: Date of Sale/Time	Not Fulfilled	Comparable 4 is listed as 'Listing Active' rather than having a sale date, which is inconsistent with it being presented as a 'comparable sale'. The other comparables have sale dates within the last year and before the effective date.
Prompt Analysis	Sales Comparison Approach: Site Adjustments	Not Fulfilled	Site adjustments were not made for comparables with different site sizes (Comp 1, 3, 4 vs Subject), which is inconsistent with the instruction's implied logic. However, the report explicitly states 'Age and site adjustments are not warranted' in the comments.
Prompt Analysis	Sales Comparison Approach: Quality of Construction, Actual Age, Condition Adjustments	Not Fulfilled	Quality of Construction and Condition adjustments are logically applied. However, Actual Age adjustments were not made despite age differences, which is inconsistent with the instruction's implied logic. The report states 'Age and site adjustments are not warranted'.
Prompt Analysis	Sales Comparison Approach: Bedroom and Bathroom Adjustments	Not Fulfilled	Bedroom and bathroom adjustments are inconsistent. The unit-level adjustments (e.g., +$2,500) do not align with the overall bedroom/bathroom counts and the stated adjustment logic of '$5000 per full' bedroom/bath difference.
Prompt Analysis	Sales Comparison Approach: Net Adjustment (Total) and Adjusted Sale Price of Comparables	Not Fulfilled	The Net Adjustment (Total) for Comparable 4 (-$36,700) is incorrectly calculated; the sum of its individual adjustments is -$24,600. While the Adjusted Sale Price for Comp 4 ($448,300) is consistent with the stated (but incorrect) Net Adjustment, the underlying calculation is flawed. Other comparables' net adjustments and adjusted sale prices are consistent.
