## Prompt Analysis Issues

Check	Requirement	Value	Comment
Prompt Analysis	Subject Data Consistency: Address	Not Fulfilled	Subject Property Address is consistent across all locations.
Prompt Analysis	Subject Data Consistency: Room Counts	Not Fulfilled	The bathroom count is inconsistent. The Improvements section and Sales Comparison Grid state 2.1 baths, while the Sketch/Floor Plan indicates 2.5 baths (Half Bath + 2 Baths).
Prompt Analysis	Photo & Page Integrity: Page Presence	Not Fulfilled	The 'SUPPLEMENTAL ADDENDUM' section, by that exact title, is not present. However, 'ADDITIONAL COMMENTS' and 'ADDITIONAL COMPARABLES' sections are present.
Prompt Analysis	Sales Comparison Approach: Proximity to Subject within 1 mile of all comparables	Not Fulfilled	Only 1 out of 6 comparables is within 1 mile of the subject property. The majority are outside the 1-mile radius.
Prompt Analysis	Sales Comparison Approach: Sale Price of subject Indicated Value by Sales Comparison Approach \$ within the highest and lowest Sale Price of all comparables also check Indicated Value by Sales Comparison Approach \$ is 10 % higher than unadjusted sales price	Not Fulfilled	The indicated value (\$190,500) is within the range of unadjusted sale prices (\$175,000 - \$195,000). However, it is not 10% higher than the lowest unadjusted sale price (\$175,000 * 1.10 = \$192,500).
Prompt Analysis	Sales Comparison Approach: Date of Sale/Time, Sale date is Greater than contract date also within 1 year also adjustments are present then check comment and graph	Not Fulfilled	Comparable 6 is listed as 'Active' rather than a 'Sale', which is inconsistent with its inclusion in the Sales Comparison Grid. All other comparables have sale dates within 1 year of the effective date, and sale dates are on or after contract dates.

Check	Requirement	Value	Comment
Prompt Analysis	Sales Comparison Approach: Site, all comparables site is Greater than subject site then adjustment values it should be Negative otherwise Positive	Not Fulfilled	No adjustments were made for site size differences, despite several comparables having significantly different site areas than the subject.
Prompt Analysis	Sales Comparison Approach: Check Adjustment consistency Bdrms. and Baths	Not Fulfilled	No explicit adjustments were made for differences in bedroom and bathroom counts, despite some comparables having fewer bedrooms/baths than the subject.
Prompt Analysis	Sales Comparison Approach: Check Adjustment consistency 'Basement & Finished Rooms Below Grade', 'Functional Utility', 'Heating/Cooling', 'Energy Efficient Items', 'Garage/Carport', 'Porch/Patio/Deck'	Not Fulfilled	Adjustments for 'Porch/Patio/Deck' are \$0 despite differences in features (e.g., OPEN/NONE vs COVER/COVER/OPEN). Other categories are consistent with \$0 adjustments.
