State Requirements	New York (NY) - A copy of the invoice should be included (unless the client is Plaza Home Mortgage)	Not Applicable	Property is in New Jersey, not New York.
Escalation Check	Value vs. Price: If the final value is higher than list price, purchase price, and prior sale price.	Needs Escalation	Final value ($850,000) is higher than the subject's purchase price ($825,000) and prior sale price ($395,000). (Page 3, 4, 5, 10)
Escalation Check	Multiple Kitchens: If a 1004 report shows 3+ kitchens, check for comments on whether they are permitted.	Needs Escalation	The third-floor kitchenette has a stove that is 'NOT LEGAL... UNLESS PERMITS WERE APPLIED FOR AND WILL HAVE TO BE REMOVED.' (Page 17)
Escalation Check	Drastic Grid Adjustments: If sales grid adjustments are drastic.	Needs Escalation	Gross adjustments for Comp 1 (21.0%), Comp 3 (18.5%), and Comp 4 (19.6%) are high. Net adjustment for Comp 4 (18.2%) is also high. (Page 5, 6)
Escalation Check	Value Higher than Purchase Price: If appraised value is higher than the purchase price.	Needs Escalation	Appraised value ($850,000) is higher than the purchase price ($825,000). (Page 5)
Escalation Check	Value Increase Since Prior Sale: If there's an increase in value since the subject's prior sale.	Needs Escalation	Value increased from $395,000 (06/16/2025) to $850,000 (02/28/2026), an increase of 115.19% in less than a year. (Page 4, 5, 6)
Escalation Check	Physical Deficiencies 'YES' but 'As-Is': If 'Physical deficiencies' is marked 'YES' but the report is made 'as-is'.	Needs Escalation	Report notes 'PHYSICAL DEPRECIATION NORMAL WEAR AND TEAR' and is 'as is' subject to 'REMOVE THE STOVE ON THE THIRD FLOOR.' (Page 4, 5)
Escalation Points	Value vs. Price: If the final value is higher than list price, purchase price, and prior sale price.	Needs Escalation	Final value ($850,000) is higher than the subject's purchase price ($825,000) and prior sale price ($395,000). (Page 3, 4, 5, 10)
Escalation Points	Multiple Kitchens: If a 1004 report shows 3+ kitchens, check for comments on whether they are permitted.	Needs Escalation	The third-floor kitchenette has a stove that is 'NOT LEGAL... UNLESS PERMITS WERE APPLIED FOR AND WILL HAVE TO BE REMOVED.' (Page 17)
Escalation Points	Drastic Grid Adjustments: If sales grid adjustments are drastic.	Needs Escalation	Gross adjustments for Comp 1 (21.0%), Comp 3 (18.5%), and Comp 4 (19.6%) are high. Net

Prompt Analysis Issues

Check	Requirement	Value	Comment
Prompt Analysis	Subject Data Consistency - Address	Not Fulfilled	The subject address is mostly consistent, but '264 Harrison St # 266' and '264-266 Harrison St' are used interchangeably across sections. While minor, it's a slight inconsistency.
Prompt Analysis	Subject Data Consistency - Room Counts	Not Fulfilled	There is an inconsistency in room counts. The Improvements section and Sales Comparison Grid state 16 rooms, 9 bedrooms, 3 baths, while the Sketch/Floor Plan calculates 17 rooms, 5 bedrooms, 3 baths.
Prompt Analysis	Sales Comparison Approach - Sale Price of subject Indicated Value by Sales Comparison Approach $ within the highest and lowest Sale Price of all comparables also check Indicated Value by Sales Comparison Approach $ is 10 % higher than unadjusted sales price	Not Fulfilled	The indicated value ($850,000) is within the range of unadjusted comparable sale prices ($765,000 - $850,000). However, it is not consistently 10% higher than all unadjusted sales prices; it is 11% higher than Comp 1, but only 0-6.25% higher for others, and equal to Comp 2.
Prompt Analysis	Sales Comparison Approach - Date of Sale/Time	Not Fulfilled	The condition 'Sale date is Greater than contract date' is not met for the comparables, as their sale dates are before or the same as the subject's contract date. However, all comps are within 1 year of the effective date, and the addendum explains the use of older comps due to limited inventory. No time adjustments were applied, with the addendum stating 'NO TIME ADJUSTMENTS WERE WARRANTED'.
Prompt Analysis	Sales Comparison Approach - Site adjustment logic	Not Fulfilled	All comparables have larger site sizes than the subject, but no adjustments were made. This is inconsistent with the stated rule that adjustments should be negative if the comparable's site is greater.
Prompt Analysis	Sales Comparison Approach - Adjustments for 'Quality of Construction', 'Actual Age', 'Condition'	Not Fulfilled	Quality of Construction and Condition adjustments are logical. However, 'Actual Age' adjustment for Comp 6 is illogical (younger comp with positive adjustment) and contradicts the addendum's statement that no age adjustments were warranted due to similar effective ages.
Prompt Analysis	Sales Comparison Approach - Adjustment consistency Bdrms. and	Not Fulfilled	Bedroom and bathroom adjustments are not consistently logical based on simple counts. For

Check	Requirement	Value	Comment
	Baths		example, Comp 1 and Comp 3 have fewer bedrooms than the subject but receive negative adjustments for Unit 1, while Comp 5 with fewer bedrooms receives no adjustment.
Prompt Analysis	Sales Comparison Approach - Adjustment consistency 'Basement & Finished Rooms Below Grade', 'Functional Utility', 'Heating/Cooling', 'Energy Efficient Items', 'Garage/Carport', 'Porch/Patio/Deck'	Not Fulfilled	Several inconsistencies were found: Comp 2's basement adjustment is positive despite being superior. Comp 4's heating/cooling adjustment is $0 despite being inferior. Comp 2 and 3's garage adjustments are positive despite being identical to the subject. Comp 4 and 5's porch adjustments are positive despite being similar to the subject.
