Comments on market data, including the range of rents for single family properties, an estimate of vacancy for single family rental properties, the general trend of rents and vacancy, and support for the above adjustments. (Rent concessions should be adjusted to the market, not to the subject property.)

The rental properties utilized in this property were deemed to be the best indicators of the current rental climate for the subject property. Typical rents for similar properties range from $1,944 to $3,900 per month. Rental concessions for rental properties are not apparent at this time. The appraiser also used data from other sources such as Bay Area rental properties and in house files in determining the current rentalB estimates for the subject property. The rental data utilized in this report represents the most accurate estimates of housing in the area as per the appraiser's research. Search area was expanded due to a lack of comparables in the subject area.

RECONCILIATION

Final Reconciliation of Market Rent: Most weight is given to Comp #1 as it has the closest proximity to the subject and has a similar GLA and bathroom count. Comps #2-4 provided additional support. Comp #2 is a very recent lease but has an inferior GLA and bedroom and bathroom counts. Comp #3 has a similar GLA and bedroom count but is an older lease and is located in a farther location. Comp #4 is the most recent lease and has a similar bedroom count but has a superior GLA and overall condition.

I (WE) ESTIMATE THE MONTHLY MARKET RENT OF THE SUBJECT AS OF 03/16/2026 **TO BE $** 2,900

* An appraisal of the subject property was completed with an effective date of March 6, 2026.

* The intended user of this appraisal report is the lender/client. Unless specifically stated within the report, there are no additional intended users. The intended use is to develop an opinion of market rent for the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated scope of work, purpose of the appraisal, reporting requirements of this appraisal report form, and definition of value as defined in the report.

* Scope of Work
This report form is designed to present the information needed to determine the market rent for a single-family property. It calls for information on the physical structure, location, and lease terms. This appraisal report is subject to the following scope of work, intended use, intended user, definition of market rent statement of assumptions and limiting conditions, and certifications. The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market rent, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) obtain and review adequate and reliable information for the subject property, and the subject project (where applicable) including, but not limited to, public and/or private data records, and information as described by the appraiser in the appraisal report, (2) research, verify, and analyze adequate and reliable data from public and/or private sources for the subject market area including data for each comparable property reported, and, (3) report his or her analysis, opinions, and conclusions in this appraisal report.

* Definition of Market Rent
The most probable rent which a property should bring in a competitive and open market reflecting the conditions and restrictions of a specified lease agreement, including the rental adjustment and revaluation, permitted uses, use restrictions, expense obligations, term, concessions, renewal and purchase options, and tenant improvements (TIs).” (Source: The Dictionary of Real Estate Appraisal, 6th Edition, 2015).
